

VICTORIAN FAMILY HOME

Studio Sidika was commissioned to design and project coordinate the complete remodel and refurbishment of this 225-sqm Victorian house. Having grown up in Gibraltar, the owners were keen to maximise the amount of natural light coming into the house. Planning permission was obtained for a double-height window at the rear and Studio Sidika oversaw its design, choreographing the interiors to achieve maximum dramatic effect. They took their cue from Parisian apartments from the Haussmann era and the way they combine a timeless backdrop with classic mid-century pieces.

Designed by Studio Sidika and completed in 2021.
